

# Bring your friends to

## HTC Wildfire

You have lots of friends, in lots of different places. Why not bring them to you? See everyone's Facebook, Twitter and Flickr updates, all in one feed. Share your favourite apps, because your mates will love them too. And get everything, from texts to photos, organised by the friend that sent it - not to mention their latest Facebook status when they call. HTC Wildfire. Your friends have never been closer to you.
